Commissioner for Patents

The office has received the information disclosure statement filed 14 October 2010 along with the fee required by 37 CFR 1.17 and 37 CFR 1.97 and a statement. However, while Examiner appreciates the additional "family" information that has been provided on the 1449, technically, it renders the submission non-compliant, as the statement relevant to the instant situation must state that EACH ITEM (emphasis added) of information contained in the information disclosure statement was first cited in any communication from a foreign patent office in a counterpart foreign application not more than three months prior to the filing of the information disclosure statement. Thus, for consideration this information disclosure, both the 1449 form and the statement would need to be corrected to allow for the proper statement. The submission has been placed in the application file, but the information referred to therein has not been considered.
